PROFILE

Computer Science & Engineering student with a great knowledge of the digital world. Curious by nature, self-taught and with a few years of experience in different tools and programming languages (namely **web development** and **UI/UX design**), my ambition is to innovate, inspire and impact the digital world. I have an excellent ability to build **creative and efficient solutions**, always looking to learn new things and offer the best in terms of quality and innovation. I'm looking to contribute to innovative projects and companies in the digital world, applying my knowledge of **development, project engineering and solution design, project management** (a skill I've had the opportunity to acquire while working for these companies) and **teamwork**.
